

Registration forms are collected for 'legitimate grounds' to have enough sufficient data that Dexterity may actively send relevant information about the classes you currently attend, updates, invoices and receipts.

Only relevant information partaking the dance school's activities will be sent, no data will be passed to any 3rd parties unless called for legally.

On leaving the school, database information will be archived in case you return, unless you request deletion. No further emails will be sent. Your enrolment form will be shredded.

If you consent to be added to the e-marketing list, further class, event and newsletter information will be sent, even after you have left the school. You can unsubscribe at any time.

This permission for your consent to be contacted for marketing, film and photographs has minimal data only, required for child protection and will need to be kept to comply with the current laws.

Please sign to give consent. If you do NOT give consent, do not sign.
